

Clean your hands. Save a life.

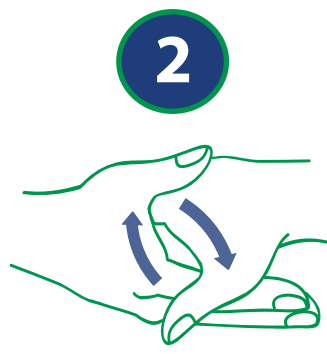

How to clean your hands effectively

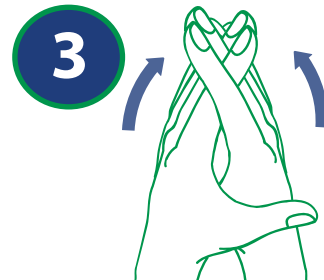

Depending on where you are when you need to clean your hands, you may use either soap and water or alcohol-based hand rub. If you're using hand rub, skip steps 8-10.

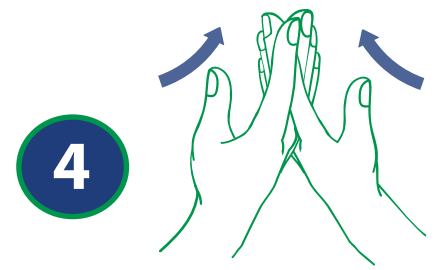

Apply hand rub or soap and water

Rub hands palm to palm

Rub hands palm to palm with fingers interlaced

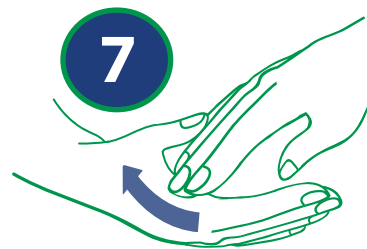

Rub back of hands with fingers interlaced

Rub backs of fingers on opposing palms with hands interlocked

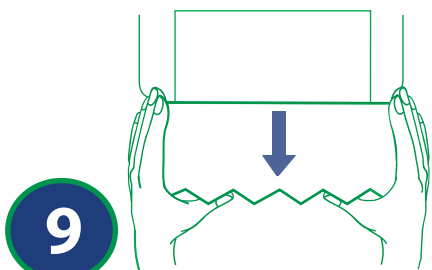

Rotate opposing hand around each thumb

Rub fingers around opposing palm

Rinse hands with water

Dry thoroughly with a single-use towel

Use the towel to turn off the tap and dispose of in pedal bin

Leave your hands to completely dry for 60 seconds, and your hands are safe!

DDC Dolphin are redefining infection control. If you need any help with your sluice room requirements, get in touch today.
